

Diversity & Inclusion: Discover how to enable your organisation with technology solutions & accessibility tools

At Akari we strive to inspire change with inventive and creative technologies to further enable people’s experiences. When we began our journey with accessibility at the heart of what we do, the solutions and IP we built had to be inclusive by design. We deliver solutions based on the ethos that every employee as an individual, creating a culture and environment of inclusion.

WHAT WE OFFER

“ Inclusion & accessibility are more than just words; they underpin everything we do from recruitment, deployment, IT solutions and change management. As an organisation who believes in diversity and creating an even playing field for all, we try to see life through a different lens. We believe true inclusivity can only occur when everyone has access to the same tools. ”

Discovery Workshop

A discovery session for key business leaders focused on diversity and inclusion strategy, looking at key areas including technology roadmap, workforce analysis, the accessibility tools available to support and enable the workforce and identifying practical and simple next steps in order to evolve the overall business strategy.

Change Management

Empowering staff of all abilities to have the confidence to complete tasks, Change Management delivers accessible comms, training plans and support network to demonstrate key accessibility features. Materials are designed with point and click instructions to remove barriers to learning.

Akari Virtual Assistant (AVA)

AVA is a virtual assistant built on Microsoft Teams and uses artificial intelligence to learn workflows and answer or prompt questions about tasks. Creating a lot of positive impact as a tool for anxiety, learning difficulties or hidden disabilities, AVA simplifies productivity and creates inclusion within the workplace.

Akari Translation Studio

Akari Translation Studio utilises a simplified web front end, allowing organisations to produce translated documentation at scale with an accompanying fact sheet. Utilising Microsoft services, translation studio delivers inclusion at your fingertips supporting diverse workforces and participation.

WHAT PEOPLE ARE SAYING

“Thank you Akari for helping to drive this. When we invest in accessibility, #WeAllWin”

– Hector Minto, Senior Accessibility Evangelist, Microsoft EMEA
